

To avoid overtasking local medical systems during the COVID-19 outbreak, Coconino County Health and Human Services are asking area businesses to send this message on their behalf:

- **If you feel sick**, isolate yourself and contact your health care provider.
- If you feel you may have COVID-19, have that conversation with your provider or contact CCHHS at (928) 679-7222. They will ask screening questions to determine your level of risk.
- If they believe you exhibit signs and symptoms of COVID-19, they will assist with providing information on where and how to get tested.

Thank you for your diligence in protecting the NAU and Flagstaff communities.
